

**Declaration of EU Dual Use Regulation 428/2009**

Servotronic Motion Control Ltd. hereby declares the conformity of the CDHD/CDHD2 Servo Drive Series ("CDHD"), and its derivative DDHD products line ("DDHD"), produced by us at their condition "AS IS", with European Union Regulation (EC) 428/2009 export regulations.

The CDHD, and the DDHD are designed to control permanent magnet servo brushless motors, for general purpose and industrial machinery. The CDHD controls the motor in torque, speed and position modes, but doesn't have mode of output frequency control. The CDHD designed to control only permanent magnet motors and not able to run multiphase hysteresis (or reactive) AC electric motors for synchronous operation.

Starting from firmware version 1.41.18F0.0.40 and further, the output frequency of CDHD is limited to 599 Hz.

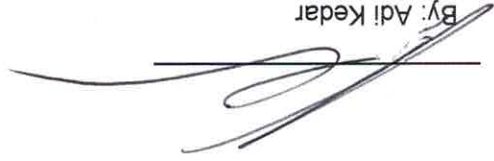

The operating temperature of the CDHD and DDHD ranged from 0°C to 45°C, which is suitable for civilian use and not for military use.

Based on the aforesaid, we declare that the CDHD and DDHD are designed for civil use (single use) only and complies with European Union Regulation (EC) 428/2009 export.
